

Child Support Standards Chart

prepared by
New York State Office of Temporary and Disability Assistance
Division of Child Support Services

This Child Support Standards Chart can be used to determine an approximate annual child support obligation. For a detailed, legal explanation of all factors used by the court in calculating a child support obligation, you should consult section 413 of the Family Court Act. Please note that the calculations provided in the stated chart intervals are based upon the lower bound of the interval. For example, when calculating the obligation for the range of income at \$25,600 to \$25,699, the chart uses the amount of \$25,600 to determine the obligation amount. For a precise calculation of the obligation at an income level above the lower bound of the interval, use the percentages listed below to perform the calculation on the worksheet located on page 22.

The 2026 poverty income guidelines amount for a single person as reported by the United States Department of Health and Human Services is \$15,960 and the 2026 self-support reserve is \$21,546.

Note: Where the total income of both parents exceeds the combined parental income amount of \$193,000 the law permits, but does not require, the use of the child support percentages in calculating the child support obligation on the income above \$193,000.

---	---	----------------------

* See Family Court Act § 413 (1)(b)(5) for the complete definition of "income" under the Child Support Guidelines. Income includes gross total income as should have been or should be reported in the most recent federal income tax return. Income may also include amounts imputed by the court. To the extent not already included in gross income, add investment income (minus the sums expended in connection with such investment), voluntarily deferred income or compensation and income received from the following sources: workers' compensation, disability benefits, unemployment insurance benefits, social security benefits, veterans benefits, pensions and retirement benefits, fellowships and stipends, and annuity payments. Income deductions include certain self-employment deductions, certain unreimbursed employee business expenses, except to the extent these allowances reduce personal expenditures, certain alimony or maintenance or child support actually paid to a spouse or on behalf of a child not a party to the instant action, public assistance, supplemental security income, New York City or Yonkers income or earnings taxes actually paid, and Federal Insurance Contributions Act (FICA) taxes actually paid.

** The Basic Child Support Obligation is defined by Family Court Act § 413 (1)(b)(1). The noncustodial parent's portion of the Basic Child Support Obligation includes the amount resulting from multiplying the noncustodial parent's income by the appropriate child support percentage, then adding the noncustodial parent's share of cash medical support obligations, educational, and child care expenses where appropriate.

NOTE: Where the **combined** parental income exceeds \$193,000 the law permits, but does not require, the use of the child support percentages in calculating the child support obligation on the income above \$193,000.
